EUROPEAN ELECTRICITY

2024 EDIT

**BUSTER + PUNCH STARTED IN A GARAGE IN
EAST LONDON, BUILDING CUSTOM MOTORBIKES
AND LIGHT FITTINGS.**

Our love for working with rare, solid metals has
led us to transform everyday functional fittings
into extraordinary home essentials.

From the light bulb, the dimmer switch and the
pendant lamp to the door handle and the cabinet pull,
Buster + Punch has created an innovative collection
of unexpected design details.

This is European Electricity, the iconic collection of
solid metal dimmers, switches, sockets and outlets
configured to fit European standards.

Select from complete solid metal fixtures in white, steel, brass, smoked bronze and black, with additional detail kits for customisation. You can also custom build your own switches, dimmers, outlets and sockets online. The range is optimised, fully engineered and code approved for European residential and contract applications.

Next time you throw the light switch, or reach for the dimmer, you might feel like a rockstar.

[our. **DESIGNER.**]

Buster + Punch's Electricity collection is designed by renowned London architect, Massimo Buster Minale. Referencing the energy of London's sub-cultures and his roots in custom motorcycles, Minale founded Buster + Punch to transform ordinary design and interior detailing into extraordinary home and life essentials.

"DETAILS ARE THE FOUNDATION OF A POWERFUL INTERIOR, NAIL THE DETAILS AND EVERYTHING ELSE FALLS INTO PLACE NATURALLY. THE ELECTRICITY COLLECTION DOES JUST THAT, BUT ALSO HAS A VERY SPECIAL WAY OF BONDING YOU TO YOUR HOME, OR A SPACE. THE TACTILE, KNURLED, ANALOGUE SWITCHES AND DIMMERS HAVE A SOUL THAT YOU CAN FEEL WHEN YOU USE THEM. THEY MAKE YOU FEEL SPECIAL."

CUSTOM ELECTRICITY

For a truly bespoke interior, use our online configurator to create your own custom switches, dimmers, outlets and sockets.
